COMPACTSLAB

High performance countertops. Imagine a climate positive, highly renewable countertop, thin, elegant with structural characteristics beyond natural stone with the best performance for kitchen environments.

Superficies de alto desempeño. Imagina un mesón altamente resistente, elegante, de fácil cuidado y mantenimiento, con características estructurales mucho más eficientes que la piedra natural y con el mejor desempeño en cocinas.

BLINDADO PANEL

Ballistic panels. It is the simple and effective solution for the ballistic resistance of public, private or corporate spaces. It allows protection against unwanted intrusions, theft and vandalism without sacrificing design in space.

Paneles balísticos. Es la solución sencilla y eficaz para la resistencia balística de espacios públicos, privados o corporativos. Permite una protección contra intrusiones no deseadas, robos y actos de vandalismo sin sacrificar el diseño en el espacio.

PANELEX

Thermostable architectural panel for exterior vertical application, used as wall cladding in ventilated façades.

Panel arquitectónico termoestable para uso vertical exterior, utilizado como revestimiento en fachadas ventiladas.

OPAK

Our super-matte laminate developed with high end technology for the most demanding horizontal applications, requiring the highest scratch resistance. **Properties:** Low reflectivity, anti finger print, water repellent. **Applications:** Kitchen counters, work surfaces such as desks and conference tables, among others.

Nuestro laminado súper mate, desarrollado con tecnología de punta para aplicaciones horizontales exigentes que requieran la más alta resistencia al rayado. **Propiedades:** Baja reflectividad a la luz, anti-huella, hidrófugo. **Aplicaciones:** Mesones de cocina, superficies de trabajo como escritorios y mesas de reuniones, entre otros.

COMPACT - COMPACTO

Extremely durable, thick, structural non-porous high pressure laminate (no substrate required) for interior use.

Laminado de alta presión grueso, macizo y estructural (no requiere sustrato) de alta durabilidad para uso interior.

REAL

Exclusive embossed in-register collection. An amazing level of realism to both sight and touch for striking surfaces in both thin and compact laminate.

Colección exclusiva de grabado a registro. Una espectacular RE-Concepción de la naturaleza con un impactante nivel de realismo a la vista y al tacto para superficies impactantes en laminado delgado y grueso.

EX² COMPACT - COMPACTO EX²

Extremely durable, exterior compact laminate for horizontal applications.

Laminado compacto de alta durabilidad para uso exterior horizontal.

CHEMLAM

High pressure laminate resistant to chemicals, produced with patented technology for surfaces that are exposed to the most stringent and demanding applications.

Laminado de alta presión resistente a los químicos, producido bajo tecnología patentada para superficies expuestas a las más exigentes aplicaciones.

CHROMACORE

High pressure laminate homogeneous color throughout.

Laminado de alta presión con el núcleo del mismo color que la superficie para mayor homogeneidad.

DURAOPAK

Super matte finish, anti-fingerprints and soft touch board for the manufacture of all type of furniture.

Tableros en acabado super mate, anti-huella, suaves al tacto para fabricación de todo tipo de mobiliario.

Product Portfolio - Portafolio de Productos

Special Products - Productos Especiales

BOARDS - PIZARRAS

Our HPL is ideal to produce dry marker, chalk, magnetics and projectable (smart) boards.

Nuestro laminado es ideal para la producción de pizarras de borrado en seco, pizarras de tiza, pizarras magnéticas y proyectables.

METAL - LAMINADO METÁLICO

Our HPL produced with real metal foils for sophisticated looks.

Nuestro laminado de alta presión producido con lámina metálica para ambientes sofisticados.

EDGEBANDING - CANTOS

PVC edgebanding with textures and finishes equivalent to those of our HPL collection, to get a more natural look.

Canto de PVC con texturas y acabados equivalentes a nuestra línea completa de laminados de alta presión para una apariencia más natural.

YOULAB

Digital print solutions. Create the best experiential exhibits with an ideal combination of the latest technology in high end digital imaging with the quality and durability of our HPL with stunning graphics.

Soluciones de impresión digital. Cree la mejor experiencia en sus exhibiciones con una ideal combinación de tecnología de punta en imágenes digitales de alta resolución, con la calidad y durabilidad de nuestro laminado de alta presión con gráficos duraderos en los entornos.

LUMIFORM

Lumiform is a translucent decorative laminate perfect to create cozy atmospheres, with filtered and indirect light. Ideal for indoor spaces such as offices, hotels, restaurants and retail; in applications such as light boxes, ceilings, backlit elements, divisions and screens.

Lumiform es un laminado decorativo translúcido perfecto para crear atmósferas acogedoras, con una luz filtrada e indirecta. Ideal para espacios interiores como oficinas, hoteles, restaurantes y retail; en aplicaciones como cajas de luz, cielos rasos, elementos retroiluminados, divisiones y mamparas.

Features - Características

CARBON NEUTRAL CARBONO NEUTRO

Produced under a system that measures, controls and balances emissions. We compensate our footprint and favor the environment.

Producido bajo un sistema de medición, control y balance de emisiones. Compensamos nuestra huella y favorecemos al medio ambiente.

ANTIMICROBIAL

Our full range of HPL is Antibacterial, tested under the JIS Z 2801 method. Silver Ions nanotechnology offers antimicrobial and anti-fungal protection, reducing up to 99.9% of microbes on the surface. Lamitech surfaces are also proven against germs and some viruses.

Nuestra gama completa de HPL es antibacteriana, probada bajo el método JIS Z 2801. Usamos la nanotecnología, la cual brinda protección antimicrobial y fungicida, reduciendo hasta un 99.9% los microbios presentes en la superficie. Nuestras superficies también son efectivas contra gérmenes y algunos virus.

FIRE RATED RESISTENTE AL FUEGO

Ideal whenever fire codes specify an HPL with combustion resistance and smoke inhibition. Tested under ASTM E 84 and EN 13501-1 standards.

Ideal cuando se requiere un laminado de alta presión resistente a la combustión, que inhiba la producción de humo. Evaluado bajo las normas ASTM E 84 y EN 13501-1.

HIGH WEAR ALTA ABRASIÓN

Offers up to six times the abrasion resistance of a conventional laminate.

Ofrece hasta seis veces mayor resistencia a la abrasión que un laminado convencional.
